#### NOTIFICATION.

Dated Shillong, the 11th March, 1957.

Subject:—Introduction of Decimal System of Coinage—Question of advance supplies of new decimal coins to Heads of Offices.

No. TM 40 55 79.—Reference is invited to Para 5 (ii) of this office notification No. TM. 40 55/75, dt. 8 2-57, wherein it was mentioned that the feasibility of making arrangements for advance supplies of new decimal coins of the denomination of 10 Naya Paisa and below was render examination. The question has been considered and the conclusions reached are set out below:—

by presenting bills. The bill necessarily have to draw new series of coins on or after 1-4 57. In cases where the departments draw their requirements of cash by cheques, there is no objection to such Departments drawing their requirements of small coins in new currency before 1-4-57, for use from that date by cheques marked not payable before 1-4-57. The cheques so issued will automatically be accounted for in the financial year 1957-58. An actual entry in red ink in the inner column of the cash book should be made on the actual date of receipt of the new coins to bring out factual position. As the coins will be legal tender from 1 4-57 only, their receipt in money column in the cash book may be entered on that date. In the cash balance report prepared on 31-3-57, if any, the stock of such come will be shown as under custody.

The procedure followed by the Reserve Bank in regard to the issue of new coins before 1-4-57 will apply 'matatis mutandis' to non-banking treasuries.

(ii) In the Posts and Telegraphs Department, where funds are also drawn from the treasuries by presentation of receipts, the treasuries and sub-treasuries may accept post-dated receipts from the Post Masters as in the case of cheques marked not payable before 1-4-57, and issue the requirements of decimal coins before 1-4-57. The value of these coins will be shown by Post Masters in red ink in the Treasury Pass Books as well as in the cash book, and will be included in the Cash Balance only of 1st April, when these coins will become legal tender.

Coins required by Sub and Branch Offices situated at stations where there are no treasuries or sub-treasuries will be remitted to them in the usual way but the value of the remittance will be shown only in the remarks column or in a separate note. The sub and Branch Offices receiving these coins will similarly send an acknowledgement to the offices remitting the coins but will not include the value in the cash balance. The value of coins will continue to be shown in the remarks column till the 1st April, 1957, when these will be shown as a remittance received from the cash office. The cash office will also show the value of these coins as the remittance made on the 1st April.

- (iii) Similar procedure may be followed for obtaining stamps in new denominations before 1st April, 1957.
- 2. The Departmental Offices should indent for their minimum requirements only, and supplies will be made to them subject to the availability of the new coins at the offices of the Reserve Bank, their agencies and the treasuries.

No. T 7 press Pub 55-56 IV Vol. II.— The Nutrition Advisory Committee of Indian Courcil of Medical Research have made the following remarks on the Toxic effect on the consumers of Kesari Dhall.

"The Committee considered that on the present evidence there is a possibility of an actiological relationship between lethyrism and the consumption of kesari dhall. The Committee, therefore, was of the view that the production of lathyras sativus in the area in which it is now being grown should be discouraged and that the cultivation of other legenarious crops suitable for human consumtion in place lathyrus must be encouraged. The Committee felt that in the States in which lathyrus is not now being grown, its importation and sale, either by itself or admixed with other pulses, should be beauted".

The Central Committee for Food Standards and Advisory Committee of this Ministry who were also consulted agree that kesari dhall has infurious effects on health.

In consideration of harmful effect resulting from the consumption of kesari dhalf the Govt, of India desires that people should not cultivate Kesari Dhall and its consumption should be avoided and that cultivation of leguminous crops suitable for human consumption should be carried out.

Subject :- Introduction of Decimal Sy tem of Comage.

- No. TM-40/55/75 dt 8 2 57.— the ly decide is by the Government of India, the decimal system of coinage will a stronged with freet from the 1st April, 1957. The introduction of the new coinage system will income some changes in the initial accounts maintained in treasuries and other dispartmental offices. The following instructions in this regard are issued for the guidance of treasuries and all Heads of Departments, Offices etc. under the audit control of this office.
- 2. From 1st April 1957, the date of introduction of the new coinage system, all accounts (initial at well as compiled) shall be maintained in terms of rupees and Naya Paise instead of it rupees, anna, and pies as hithert fore, although both the elisting and new types of coins will be in circulation simultanously for some time. All chalans in support of money toodered in payment of Gevernant dues should, therefore, be expressed in new coinage. Similarly all bills for wishdrawal of money also should be expressed in Rupees and Naya Paise. The forms of bills, chalans, and other books of account will be revised to provide two columns to show Rupees (Rs.) and Naya Paise (ap)

separately. The existing forms in which the money columns new contain three sub-columns for record of the amount in Rupees annas and pies. may, however, continue to be used till such time as the forms are revised. The last two sub-columns which provide for record of annas and pies should be used for recording Naya Paise in terms of new coinage by suitably modifying the headings of these columns. The total amount of each bill, chain as well as the amounts in pay orders, etc, whould be expressed in decimal system. The following sign and mothod of expressing amounts in new coinage in figures should be adopted:—

- (i) Rupees twenty five and five nave paise-as Rs 25.05 (Not Rs.25.5).
- (ii) Rupees twenty five and fifty naye paise-as Rs.25.50 (Not Rs.25.5).
- (iii) Ruppes fifty five and eighty three naye paise-as Rs. 5583.
- (iv) Fifty have paise.-as Rs. 0.50.
- Note t—A similar method will also be adopted when the amounts are posted in firms providing for separate columns for Rupees and Naye Paise. Thus in posting an amount of Rupees twenty five and five maye paise, 25 will be entered in the Rs. column and 05 in the Naya paise column.
- Note 3—Amounts expressed in annes and pies should, before posting in accounts books and forms, be converted into whole numbers of Naye Pause according to the conversion table.
- 3. It is be no decided that attempt should be unide to keep down to the inevitable minimum the pari d of ransition during which both the existing and decimal coins would eited as legal tender by the will depend much upon the the speed of absorption and cincil clies by the general public. The withdraw lof existing coins should stare immediately on or after 1457 and the coins of the denominations of 2 aupas and and r will be withdrawn first as decimal coins of 10 Na e Paise and bei-w only will be put to circula ion in sufficient quantities at the mirel stages. In order to achieve this object, whilst moneys tendered in payment of Government dues in whatever currency it is cade, shall be accepted in treasuries and other offices entrusted with receip of Government dues; every endeavour shall be made to make payment of Government due only in new coins. On occasions, however, when the stock of new coins in a treasury or other disburing office runs short, disbursements may be made in existing coins too. With appropriate planning as to the requirement of the new come, it should not be very discult to keep down such occasions for disbursement in old come to the minimum. The old coins, which are withdrawn from circulation, may be transferred to the small coin dopot, if one is established at the treasury, or held in the treasury, balance pending remittance to the Mints.
- 4. So long as the existing anna and pie coins cutique to be legal tender and both types of coins remain in circulation there may arise a difference between the book balance and the actual physical cosh due to conversion of one type to the other in the individual items and in the total. For it tance, it payment of dues of 12 Nave Paire, 2 areas of the existing cams may be tendered. Two such transactions will represent in the accounts, twenty four Nava Paise whereas actual total cash received will represent 25 Naya Paise. The difference of one Nave Paise will be a gain to Government due to conversion. Contrarywise, if in payment of two dues of 19 and 5 Naye Paise respectively, three annes and three fourth annas are tendered, actual cash received will represent in the accounts in total one Nave Paise loss than the total does Such losses or gains on conversion shall unitially be taken 1 · C vention: account under a sparate muor head "Loss er Gain on Conversion to Decinal Coinage" to be specied in the Central Section of the Accounts under the Mejor Head "Suspense Account" subordinate to "S-Deposits and Advances Part IV Suspense". Necessary instructions regarding the final adjustment of such losses or gains will be issued separately.

5. In order to determine from the accounts the amount due to loss or gain on conversion, it will be necessary to exhibit in the accounts distinctly all items of receipts and payments which are tendered or made in the existing currency in the manner indicated below:—

#### (i) In the Accounts of Treasuries.

This question will not affect Government accounts where treasury business is conducted by the Bank. All the losses or gains due to conversion will be in the books of the Bank. In case of non-bank treasuires, the accounts maintained in the Account's branch, viz, the Subsidiary Register, Cash Books, Schedules of receipts and payments, Cash Accounts, etc. will be always expressed in the new coinage. The Treasurer's Cash Book, which at present records the receipts and payments chronologically as they occur in a single money column will, however, from the -appointed date, be in three columns in both the receipts and payments sides. All items of receipts and payments as shown in the chalans and in payment orders recorded in the bills will be incorporated in the first money column in terms of Rupees and Naye Paise, In cases where the amount is tendered entirely in new decima looins no further entry in the two sub-sequent columns will be necessary. In cases where the actual money tendered includes existing coins the amount tendered in such coins shall be noted in the second money column in terms of Rupees, annas and pies. The third money column will show the equivalent of the amount in the second column converted into the new coinage and expressed in Rupees and Naye Paise. Taking for example that in depositing Government dues of Rs. 5.29, the -actual amount tendered includes, amongst other coins, existing coins of the total value of Rupee one and annas fifteen consisting of one eight anna piece, one four anna piece, eight two anna pieces and two one anna pieces and 4 pice pieces, the -entry in the 3 columns will be as indicated below:

Column I	Columa Il	Column_III	
Rs. np.	Rs. a. p.	Rs. np.	,
5 29	1 15 0	1 94	

The difference between the totals of the first money columns on the receipts and payments side at the end of the day will show book balance with the Treasurer which shall have to be reconciled with the actual cash balance in the custody. The details of the old coins received and paid in respect of each transaction should be noted in a Subsidiary Register in Form I appended. The value of the old coins for the day in the Subsidiary Register should tally, with the net closing balance of money column II of the Treasurer's Cash Book. After the totals of columns of columns II and III on the receipts side of the Treasurer's Cash Book have been struck the amount of the total in Column II should be converted into the new coinage and recorded in Rupees and Naye Paise below the total of Column III on that side. The difference will represent the loss or gain by conversion of sums tendered in old coins on Government Accounts. The resultant total loss or gain by conversion during the day will be added to or subtracted from the total in Column I. There will ordinarily be no payments in old coins of 2 annas and under on or after the 1.4.57. If however, any payments are rendered necessary. the amount thereof as also payments in half and quarter rupee coins should similarly be entered in column II and their decimal equivalents in Column III on the payments side, and the loss/gain on conversion should be worked out at the end of the day and added to or subtracted from the total in Column I. This will reconcile the book balance with the actual each balance. This sum will also be incorporated by the Accountant in his Cash Book under the Head 'Loss or Gain on coversion to Decimal Coinage" subordinate to "S-Deposits and Advances-Part IV-Suspence-Suspense Accounts" referred in para 4 above. This will enable the Treasurer's and the Accountant's balance sheets to be agreed, when accounts for the day may be treated as closed.

(ii) Accounts in Departmental Offices.

It is desirable that Heads of Offices should take necessary steps in advance to have sufficient stock of decimal coins of the denomination of 10 Nava Paise and below so that payments by them or by their subordinate organisations to individuals may be made from 1.4.57 in decimal coins. The feasibility of making arrangements for such advance supplies of new coins is under examination in consultation with the Re-erve Bank of India. The existing coins in possession of Departments on 1 4 57, and those to be received subsequently should be got exchanged at the Reserve Bank of India, the State Bank of India or at the Treasury at Convenient intervals. however where such exchange is not possible, it may be necessary to conduct business in existing coins also. As however, the number of transactions in each coins is not expected to be very large, it may not be necessary to maintain a Cash Book in departmental offices in three columns in the manner indicated for the Cash Book of Treasuries of non bank treasuries. Instead, the Cash Book may be maintained in a single money column as at present, but in terms of Rupees end Naye paise. When in respect of any item of receipt and payment the actual money tendered includes present coins the amount as tendered be incorporated in a Subsidiary Register in Form II appended. The procedure for the adjustment of the net gain or loss is under examination and instructions will follow separately.

- 6. As already stated in para 3 above the period of transition is to be reduced to the minimum. Meanwhile the non-bank treasuries will be expected to provide facilities to the public for getting their old coins exchanged for new ones. As in the case of Government dues, such exchange by public of old coins for new case will also entail some loss or gain by conversion. To avoid such losses or gains, the Government of India have issued instructions that exchange should be permitted only for amounts tendered in four annas and multiples thereof, vide Ministry of Finance (Department of Economic Affairs; letter No. F. 4 (72)-F. III/56 dated 10.11.56.
- 7. Opending balances under Debt, Deposit and Remittance etc. heads, whether in the books of the Accountant General or in the books of the Treasury Officer or in Departmental Offices will have to be converted into new denominations before entering them into the Ledger or any other register, schedule or return as on the appointed date. The individual items which work upto the total balance in such ledgers etc. shall also be similarly converted into the new coinage and recorded in red ink just below the original figure. The difference due to this conversion will also be adjusted under the head "Loss or Gain on conversion to Decimal Coinage".
- 8. The amounts specified in Rupees, annual and pies in financial sanctions, rules, orders notifications contracts, deeds or other enactments would, under Section 14 (3) of the Coinage (Amendment) Act, 1955, will be automatically construed as expressed in terms of equivalent value under the decimal system without any rounding off. Rounding off should be made only at the stage when actual payment or tender of money takes place. Thus in agreements, enactments, etc. where rates are specified, the rounding off should be made only in respect of the total amount payable or receivable in a single transaction. The same principle will apply to all letters of authority (including P. P. O. Pay slip, etc.) where amounts are expressed in the present coinage. The disbursing officers shall insert in red ink the corresponding amount in the new currency below the original amount in the letters of authority and sanctions, etc.

No. H-Co/32/55-56.—Copy of letter No. F. 10-18/56-Coop. I., dated 18th Nevember, 1956 from the Government of India, Ministry of Agriculture is republished for general information.

By order,

Subject: -MULTI-UNIT COOPERATIVE SOCIETIES ACT, 1942 AMENDMENT OF.

I am directed to say that the Government of India has under consideration the proposal for amending the Multi-Unit Co-operative Societies Act, 1942, so as to make it applicable to the whole of Indian Union.

- 2. The Multi-Unit Co-operative Societies Act is an Act to provide for the incorporation, regulation and winding up of Co-operative Societies with objects not confined to one State. At the time of the passing of the Act there were a few societies registered in particular states which has extended their activities to other States also. These societies had to be validated and future societies with similar activities had also to be given recognition under Law. The Multi-Unit-Act was, therefore, passed in order to cover such societies. The Act does not provide for registration of such societies, but has made the provision that a society registered in a State under the Law relating to Co-operative Societies inforce in that State shall be deemed to be so registered in any other State to which its objects extend (Vide section 8(1) of the Act). This Clause covered the needs of all India Societies and separate registration under the Multi-Unit Act is not, therefore, provided for.
- 3. The Multi-Unit Act as it stood then did not extend to Part 'B' and all the Part 'C' States as Clause 1(2) of the Act restricted its application to what was British India.
- 4. Co-operative Societies with objects extending over more than one State are now being formed in Fart 'B' and Part 'C' States, like societies of the Posts and Telegraph Railway workers, National Co-operative Union of Railway workers, etc. etc. It, therefore, became necessary to amend this Clause so as to make the Act applicable to those States as well.
- 5. Parliamentary legislation relatable to entry 44 of the Union list in this behalf has already been undertaken and Clause 1 (2) of the Act has been amended to read as follows:—
- "It extends to the whole of India except the State of Jammu & Kashmir". The State of Jammu and Kashmir has to be excluded because entry 44 of the Union list is not included in the Constitution (Application to Jammu and Kashmir). order, 1954.
- 6. The above amendment has been published as the "Multi-Unit Co-operative Societies (Amendment) Act 19.6 (34 of 1956)" in the Gazette of India Extaordinary, Part II section 1, dated the 28th August, 1956.
- 7. I am to add in this councetion that the reorganisation of States from the 1st November, 1956, will not in any way affect the working of this Act.
- 8. I am to request that the amendment may kindly be given wide publicity in your State for the information of Co-operative Societies.

### PRESS NOTE

## GROWTH OF UNRECOGNISED MEDICAL INSTITUTIONS STUDENTS WARNED AGAINST ADMISSION.

In recent years a number of new medical colleges have been opened, including a lew by private and non-official agencies. For the general information of persons seeking admission to medical colleges, the position in respect of recognition of degrees by the Government of India is as follows:—

A medical college is a very expensive proposition. It has to fulfil certain standards prescribed by the Medical Council of India. For this purpose the college must be adequately equipped with and must have an adequate laboratory, research and hospital facilities and last, but by no means least, employ fully qualified teaching staff. Students studying in ill-equipped colleges with unqualified staff do not obtain the necessary experience and training required for a medical graduate.

It is not enough that a medical college is approved by a university for instruction in a medical science. The degrees obtained by instruction a medical institution have to be recognised by the Government of India and included in the first schedule to the Indian Medical Council Act, 1933, so that students passing out of such colleges will be entitled for registration and inclusion in the Indian Medical Register.

The Medical Council of India sends inspectors and visitors to examine whether the instruction, training and examination provided in medical institutions are up to the required standard. The Council thereafter makes recommendation to the Government of India who after examining these recommendations decide the question of recognition of degrees of pupils passing out of various medical colleges.

On a number of occasions it has been found that, even in medical colleges started by Government due to non-availability or non-provision of proper equipment, hospital facilities etc., the first one or two batches of students passing out of such colleges are below standard and before the degrees of such students are recognised they have been made to complete their training by additional choical experience, additional classes etc.

Private organisations and individuals who want to open medical colleges should therefore consult the Government of India in the matter and find out details of hospital, research and laboratory facilities, equipment, accommodation, etc., required and the essential qualifications which the teaching staff should posses, so that the medical colleges started by them will at least nossess minimum standards. Finally, they should ensure the availability of sufficient funds before venturing on such projects.

The students seeking admission to private medical institutions are advised in their own interest that before they think of entering such medical colleges, they should find out whether a college newly started has been approved by a University and whether the Government of India will recognise the degrees of students passing out of such colleges.

The Government of India wish to make it very clear that no lowering of standards of under-graduate, medical education will be allowed and it will serve very little purpose for stude its who obtain degrees from such colleges to complain later that their degrees have not been recognised, "students getting admission into such colleges do so at their own risk.

#### NOTIFICATION.

#### Imphal, the 16th October, 1956.

No. I-F.R. 7/51-56 —In exercise of the powers conferred by section 29 & 30 of the Indian Forest Act 1927, the Chief Commissioner is pleased to review this Administration Notification No. F. R. 7/51/34 dated the 21st Septemper, 1952 and to make the following amendments to that Notification with special reference to rights and privileges conferred on the Hill Villages. Substitute the following for the existing paragraphs under the same heads:—

#### (1) GRAZING RIGHT

The Forest will remain open to grazing by the cattle of the hillmen; no permission is required to be obtained from the Ferest Officer, for the purpose of grazing. If and when the Forest Department, Manipur proceeds to take up regeneration or other cultural works in any particular patch of Forest that would be unsuccessful without exclusion of grazing from the patch for a short period, they will notify the village or villages concerned to this effect. Areas so excluded temporarily from grazing could be such in extent and location as to cause no more than the minimum of unavoidable inconvenience to the villagers.

#### 2. CULTIVATION RIGHT.

The Government would not interfere with existing jhuming rights so long as the pine trees (declared reserved trees) are not cut down or burnt for jhuming.

#### 3. WOOD RIGHT.

Regulation of felling pine trees is necessary in the interest of the future need of hillmen themselves for the development of Resin and Timber Industry. But hillmen may obtain the pine timber they need from the Forests for their own requirements on free permits to be issued by the Forest Department. For cases where there will be unavoidable delay in obtaining permits from the Forest Department the Forest Department will authorise particular village Headmen in writing to issue permits on his maintaining an account of such cases subject, however, to the control of the Forest Department, Manipur, later.

#### 4. HUNTING RIGHT.

The Hillmen can hunt freely subject to any other laws provided no damage is caused to the Forests by the use of fire etc. for hunting.

By order etc.
G. H. Singh,
Assistant Secretary (WF)
to the Government of Manipur.

#### PRESS NOTE.

#### AUGUST 15-A PAID HOLIDAY

#### Instructions to Employers.

In pursuance of the instructions issued by the Central Ministry of Labour on previous anniversaries of Independenc Day, workers were permitted to participate in the August 15 Celebrations without being made to suffer any loss in wages.

The Government of India have issued a similar directive this years to their officers in charge of industrial undertakings and they hope that other employers also will co-operate with them by declaring this national day as a paid holiday.

In view of the great importance of the occassion, Government believe that many managements of industrial undertakings have already prescribed August 15 as one of the regular holidays but where this has not been done, they hope that the employers will treat the day as an additional paid holiday and not as a substituted holiday.

The Snan, the Car and the Return Car Festivals of Sri Jagannath at Puri come off this year on the 23rd June, 9th July and the 17th July, 1956 respectively. During the festival period, a large number of pilgrims is expected to gather at Puri from all over India as in the previous years. As sporadic cases of Cholera are reported from the district itself and from different parts of the State, it is apprehended that Cholera and other bowel diseases may break out in an epidemic form during and after the festival period due to large congregation of pilgrims at Puri and may spread to different parts of this State as well as to other States if suitable precautionary measures are not adopted sufficiently beforehand. In order to protect the people from these diseases, adequate Sanitary and Public Health arrangements are being made at Puri and different road side places leading to Puri. Anti-cholera inoculation has been made compulsory in the district of Puri including puri town and arrangement has been made to inoculate intending pilgrims at different bus stands, road-side villages and Railway Statious leading to Puri, free of charge. Hence to make this arrangement a success, co-operation from public and the pilgrims in general is cordially invited in their own interest and in the interest of the safety and welfare of the Indian Union and the State.

The intending pilgrims are therefore strongly advised to (i) get themselves inoculated and to possess necessary certificate to that effect which will be issued by the inoculating officer, free of charge, as otherwise they will not be allowed to enter into the festival areas. The owners of Dharmasalas and Lodging Houses etc. have been instructed not to admit persons who cannot produce evidence of their having been inoculated against Cholera on a date not prior to 15.2.1956.

- (ii) Not to take stale or unwholesome and fly-contaminated food stuffs.
- (iii) To use piped water which is specially supplied for drinking purposes.
- (iv) Not to make the festival area dirty endangering the safety of the public.
- (v) To follow the instructions as may be given by the health staff with regard to other special sanitary measures at different halting places for pilgrims.

The intending pilgrims are warned that they will have to run great personal risk or undergo ir convenience if they attend the festival without being properly protected and without obtaining necessary inoculation certificate.

M. G. Singh,

Notification No. T.M. 38/37-38/51.

Dated, Shillong the 16th May, 1956.

Subject - Deposit of income-tax demands under the challans supplied from the Income Tax Office.

It is notified for information of all Treasury and Sub-Treasury Officers and Departmental Disbursing Officers and all gazetted Officers in Assam, Tripura and Manipur that the Income-tax demands which are raised in direct assessments on account of short deduction at source from their pay bills or on account of other sources of income, in cash, should be deposited under challans supplied from the Income-tax Officers. But it is noticed that some Govt. Officers are depositing the amount by deduction from their paybills. This procedure results in much accounting difficulty so far as such demands are concerned. The tax on direct assessments relates to previous years while tax deducted against current month's salary is credited against the tax due on current year's income. As a result of the defective procedure mentioned above the demand in respect of the previous year remains unsatisfied while the extra deduction against the current years' salary remains unadjusted till long after the end of the financial year.

It is therefore notified that only the monthly deduction of tax should be made from paybills and whenever the demand notices and challans are issued from the office of the Income Tax for any amount on direct assessment, the payment should be made invariably in cash through the challans supplied by that Departments.

Notification No. T.M. 2/16/53/50.

Shillong, the 16th May, 1956.

It is notified for information of all the Heads of Departments and controlling officers that the accounts for March, 1956 final and March, 1956 supplementary will positively be closed on the 15th June, 1956 and the 15th July, 1956 respectively in compliance with the orders of the Comptroller and Auditor General of India. It is essential, therefore, that the reconciliation of the departmental figures for 1955-56 with those booked in the accounts of the Accountant General's office should be completed forthwith, so as to admit of all re-adjustments where necessary, being incorporated in the March supplementary Accounts at the latest.

2. All Heads of Departments and controlling officers are, therefore, requested to take special steps to effect reconciliation of the figures immediately if this has not already been done. Unless the reconciliation is effected by the 10th July, 1956 at the latest it will not be possible to carry out further adjustment and the figures booked in the accounts of Accountant General's office will have to be accepted as correct and final.

H. S. Samuel, Deputy Accountant General (I), Assam.

# Imphal, the 2nd June, 1956.

No. I/E/3/52-56.—The notification issued by the Election Commission, India as published in the Gazette of India, Extraordinary Part II-Section 3, dated the 7th May, 1956 is republished for general information.

S. C. Bardhon, Secretary (Law) to the Government of Manipur.

## PRESS NOTE

In connection with bids offered at auctions by displaced persons with ver fied claims there appears to be some confusion as to the manner in which adjustments of the compensation due to these I imants and their associates against the purchase price, are to be made. In order to avoid misunderstanding, the position is being clarified in this lives Note. The rules framed under the Displaced Persons (Compensation and Rehabilitation) Act permit an auction purchiser to assiciate ginuine purchasers with him in purchasing property from the compensation oil. The rules provide that such association is permissible on y when the net compensation due to an auction purchaser is not sufficient to cover the purchase price. Some auction purthesers have the mistaken am; ression that they can as-ociate with themselves any number of other persons, and that it is not necessary for the whole of the not compersons due to these persons to be set off. The correct p sition is that the same rule which applies to the auction purchaser applies to his associates, i. e. that a second associate can only be brought in by the auction purchaser if after adjustment of the whole compensation due to the first associate a balance still remains, and so on only where the halance due is less than the net compensation of an associate that a portion of his compensation is adjusted, sufficient to cover his balance.
